

World Masters Hockey

List of Annual Events

WMH plans to host World Cups at every two-year intervals, with Continental Cups in the intervening years. The events and categories remain the same for every edition.

A country is only permitted to field 1 team per age group and gender to represent in the World Cups & Continental Cups.

In the Spirit of Masters (event currently for ages Over 55 and older for both women and men) a second team may be entered depending on the total number of participating teams. If the no. of participating teams are less with approval from WMH any interested nation can field one additional team if interested.

WMH are currently formulating relevant documents for NSF's better understanding about the rules & regulations and various other details. Once formulated it will be shared on their official website, which is still in development phase.
